

CORIOmaster 4K Application Four 1080p Input Sources to a Single 4K Display

In home theater, conference rooms, presentation spaces and operations centers, a single large 4K display consolidates four individual 1080p displays. Here, four 1080p sources have been pixel mapped onto a 4K display.

Equipment list

- 1x CORIOmaster mini (C3-510-1001)
- 1x DVI-I input card- CORIOmaster mini has 2 DVI-I inputs standard (CM-DVIU-2IN)
- 1x 4K Output card (CM-HDMI-4K-SC-10UT)
- 1x 4K30 monitor, cable and mount
- 4x 1080p sources and cables
- Computer with current Windows operating system and network cable for setup and system programming.

Additional 4K and HD inputs, windows and outputs can be added to the system to enhance your videowall arrangement. Up to four videowalls can be controlled by a single CORIOmaster unit. Let your creativity flow to build your visual experience.
